**Notes to Unaudited Condensed Consolidated Financial Statements**  
**(Tabular dollar amounts in thousands, except share and per share data)**

**1. Basis of Presentation**

Chuy's Holdings, Inc. (the "Company" or "Chuy's") develops and operates Chuy's restaurants throughout the United States. Chuy's is a growing, full-service restaurant concept offering a distinct menu of authentic, freshly-prepared Mexican and Tex-Mex inspired food. As of March 27, 2022, the Company operated 96 restaurants across 17 states.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements and the related notes reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods presented. The unaudited condensed consolidated financial statements have been prepared in accordance with Generally Accepted Accounting Principles ("GAAP"), except that certain information and notes have been condensed or omitted pursuant to rules and regulations of the Securities and Exchange Commission (the "SEC"). Results for interim periods are not necessarily indicative of the results that may be expected for the full fiscal year. The unaudited condensed consolidated financial statements should be read in conjunction with consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 26, 2021. The accompanying condensed consolidated balance sheet as of December 26, 2021, has been derived from our audited consolidated financial statements.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the period. Actual results could differ from those estimates.

Certain prior year amounts have been reclassified in our notes to consolidated financial statements to conform to current year presentation. These reclassifications have no effect on previously reported net income, income per share or stockholder's equity.

The Company operates on a 52- or 53- week fiscal year that ends on the last Sunday of the calendar year. Each quarterly period has 13 weeks, except for a 53-week year when the fourth quarter has 14 weeks. Our 2022 and 2021 fiscal years both consist of 52 weeks.

**2. Recent Accounting Pronouncements**

The Company reviewed all recently issued accounting pronouncements and concluded that they were either not applicable or not expected to have a significant impact on the Company's consolidated financial statements.

**3. Net Income Per Share**

The number of shares and net income per share data for all periods presented are based on the historical weighted-average shares of common stock outstanding.

Basic net income per share of the Company's common stock is computed by dividing net income by the weighted-average number of shares of common stock outstanding for the period.

Diluted net income per share of common stock is computed on the basis of the weighted-average number of shares of common stock plus the effect of dilutive potential shares of common stock equivalents outstanding during the period using the treasury stock method for dilutive options and restricted stock units (the options and restricted stock units were granted under the Chuy's Holdings, Inc. 2012 Omnibus Equity Incentive Plan (the "2012 Plan") and the Chuy's Holdings, Inc. 2020 Omnibus Incentive Plan (the "2020 Plan")).

For the thirteen weeks ended March 27, 2022 and March 28, 2021, there were approximately 29,337 and 2,628 shares, respectively, of common stock equivalents that were excluded from the calculation of diluted net income per share because their inclusion would have been anti-dilutive.

**Chuy's Holdings, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**  
**(Tabular dollar amounts in thousands, except share and per share data)**

The computation of basic and diluted net income per share is as follows:

	Thirteen Weeks Ended

Diluted net income per common share	<u>\$ 0.29</u>	<u>\$ 0.33</u>

**4. Stock-Based Compensation**

The Company has outstanding awards under the 2012 Plan and the 2020 Plan. On July 30, 2020, the Company's stockholders approved the 2020 Plan, which replaced the 2012 Plan and no further awards may be granted under the 2012 plan. The termination of the 2012 Plan did not affect outstanding awards granted under the 2012 Plan. Options granted under these plans vest over five years from the date of grant and have a maximum term of ten years. As of March 27, 2022, the Company had 13,165 of stock options outstanding and exercisable with a remaining weighted average contractual term of approximately 1.2 years.

Restricted stock units granted under the 2012 Plan and 2020 Plan vest over four years to five years from the date of grant. As of March 27, 2022, a total of 878,401 shares of common stock were reserved and remained available for issuance under the 2020 Plan.

Stock-based compensation expense recognized in the accompanying condensed consolidated income statements was approximately \$1,016,000 and \$944,000 for the thirteen weeks ended March 27, 2022 and March 28, 2021, respectively.

A summary of stock-based compensation activity related to restricted stock units for the thirteen weeks ended March 27, 2022 is as follows:

	Shares	Weighted Average Fair Value	Weighted Average Remaining Contractual Term (Year)
Outstanding at December 26, 2021	417,017	\$ 24.10	
Granted	141,680	31.31	
Vested	(171,490)	23.35	
Forfeited	(85)	25.70	
Outstanding at March 27, 2022	<u>387,122</u>	<u>\$ 27.07</u>	<u>3.04</u>

The fair value of the restricted stock units is the quoted market value of our common stock on the date of grant. As of March 27, 2022, total unrecognized stock-based compensation expense related to non-vested restricted stock units was approximately \$10.3 million. This amount is expected to be recognized evenly over the remaining vesting period of the grants.

**Notes to Unaudited Condensed Consolidated Financial Statements**  
**(Tabular dollar amounts in thousands, except share and per share data)**

**5. Long-Term Debt****Revolving Credit Facility**

On July 30, 2021, the Company entered into a secured \$35.0 million revolving credit facility with JPMorgan Chase Bank, N.A. (the "Credit Facility"). The Credit Facility may be increased up to an additional \$25.0 million subject to certain conditions and at the Company's option if the lenders agree to increase their commitments. The Credit Facility will mature on July 30, 2024, unless the Company exercises its option to voluntarily and permanently reduce all of the commitments before the maturity date. In connection with entering the Credit Facility, the Company terminated its \$25.0 million revolving credit facility with Wells Fargo Bank, N.A.

The Credit Facility contains representations and warranties, affirmative and negative covenants and events of default that the Company considers customary for an agreement of this type. The agreement requires the Company to be in compliance with a minimum fixed charge coverage ratio of no less than 1.25 to 1.00, and a maximum consolidated total lease adjusted leverage ratio of no more than 4.00 to 1.00. The Credit Facility also has certain restrictions on the payment of dividends and distributions. Under the Credit Facility, the Company may declare and make dividend payments so long as (i) no default or event of default has occurred and is continuing or would result therefrom and (ii) immediately after giving effect to any such dividend payment, on a pro forma basis, the consolidated total lease adjusted leverage ratio does not exceed 3.50 to 1.00.

Borrowings under the Credit Facility accrue interest at a per annum rate equal to, at the Company's election, either LIBOR plus a margin of .5% to 2.0%, depending on the Company's consolidated total lease adjusted leverage ratio, or a base rate determined according to the highest of (a) the prime rate, (b) the federal funds rate plus 0.5% or (c) LIBOR plus 1.0%, plus a margin of 0.5% to 1.0%, depending on the Company's consolidated total lease adjusted leverage ratio.

An unused commitment fee at a rate of 0.125% applies to unutilized borrowing capacity under the Credit Facility.

The obligations under the Company's Credit Facility are guaranteed by certain subsidiaries of the Company and, subject to certain exceptions, secured by a continuing security interest in substantially all of the Company's assets. As of March 27, 2022, the Company had no borrowings under the Credit Facility, and was in compliance with all covenants under the Credit Facility.

**6. Accrued Liabilities**

The major classes of accrued liabilities at March 27, 2022 and December 26, 2021 are summarized as follows:

	March 27, 2022	December 26, 2021
Accrued compensation and related benefits	\$ 7,629	\$ 11,891
Other accruals	5,433	4,844
Sales and use tax	3,066	2,806
Deferred gift card revenue	2,449	2,919
Property tax	2,128	2,782
Total accrued liabilities	<u>\$ 20,705</u>	<u>\$ 25,242</u>

**7. Stockholders' Equity****Share Repurchase Program**

On October 28, 2021, the Company's board of directors replaced the Company's previous \$30.0 million share repurchase program and approved a new share repurchase program under which the Company may repurchase up to \$50.0 million of its common shares outstanding. This repurchase program became effective on October 28, 2021 and expires on December 31, 2023.

The Company repurchased 718,112 shares for approximately \$19.7 million during the first quarter of 2022. As of March 27, 2022, the Company had repurchased a total of 983,044 shares and had \$21.9 million remaining under its \$50.0 million repurchase program.

Repurchases of the Company's outstanding common stock will be made in accordance with applicable laws and may be made at management's discretion from time to time in the open market, through privately negotiated transactions or otherwise, including pursuant to Rule 10b5-1 trading plans. There is no guarantee as to the exact number of shares to be repurchased by the Company. The timing and extent of repurchases will depend upon several factors, including market and business conditions, regulatory requirements and other corporate considerations, and repurchases may be discontinued at any time.

**Chuy's Holdings, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**  
**(Tabular dollar amounts in thousands, except share and per share data)**

**8. Contingencies**

The Company is involved in various legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on our condensed consolidated financial position, results of operations, or cash flows.

**9. Leases**

The Company determines if a contract contains a lease at inception. The Company's material long-term operating lease agreements are for the land and buildings for our restaurants as well as our corporate offices. The lease term begins on the date that the Company takes possession under the lease, including the pre-opening period during construction, when in many cases the Company is not making rent payments. The initial lease terms range from 10 years to 15 years, most of which include renewal options totaling 10 to 15 years. The lease term is generally the minimum of the noncancelable period or the lease term including renewal options which are reasonably certain of being exercised up to a term of approximately 20 years.

Operating lease assets and liabilities are recognized at the lease commencement date for material leases with a term of greater than 12 months. Operating lease liabilities represent the present value of future minimum lease payments. Since our leases do not provide an implicit rate, our operating lease liabilities are calculated using the Company's secured incremental borrowing rate at lease commencement. We estimate this rate based on prevailing financial market conditions, comparable companies, credit analysis and management judgment. Minimum lease payments include only fixed lease components of the agreement, as well as variable rate payments that depend on an index, initially measured using the index at the lease commencement date.

Operating lease assets represent our right to use an underlying asset and are based upon the operating lease liabilities adjusted for prepaid or accrued lease payments, initial direct costs and lease incentives. Lease incentives are recognized when construction milestones are met and reduce our operating lease asset. They are amortized through the operating lease assets as reductions of rent expense over the lease term.

Operating lease expense is recognized on a straight-line basis over the lease term. Variable lease payments that do not depend on a rate or index, escalation in the index subsequent to the initial measurement, payments associated with non-lease components such as common area maintenance, real estate taxes and insurance, and short-term lease payments (leases with a term with 12 months or less) are expensed as incurred. Certain of the Company's operating leases contain clauses that provide for contingent rent based on a percentage of sales greater than certain specified target amounts. These variable payments are expensed when the achievement of the specified target that triggers the contingent rent is considered probable. As of March 27, 2022, all of the Company's leases were operating.

Components of operating lease costs are included in occupancy, closed restaurant costs, restaurant pre-opening, general and administrative expense and property and equipment, net:

**10. Income Taxes**

The following is a reconciliation of the expected federal income taxes at the statutory rates of 21%:

	Thirteen Weeks Ended	
	March 27, 2022	March 28, 2021
Expected income tax expense	\$ 1,272	\$ 1,247
State tax expense, net of federal benefit	227	277
FICA tip credit	(898)	(1,120)
Officers' compensation	59	201
Stock compensation	(127)	(1,329)
Other	4	7
Income tax expense (benefit)	<u>\$ 537</u>	<u>\$ (717)</u>

Deferred tax assets are reduced by a valuation allowance if, based on the weight of the available evidence, it is more likely than not that some or all of the deferred taxes will not be realized. Both positive and negative evidence is considered in forming management's judgment as to whether a valuation allowance is appropriate, and more weight is given to evidence that can be objectively verified. The tax benefits relating to any reversal of the valuation allowance on the deferred tax assets would be recognized as a reduction of future income tax expense. As of March 27, 2022, the Company believes that it will realize all of its deferred tax assets. Therefore, no valuation allowance has been recorded.

The Internal Revenue Service ("IRS") audited our tax return for the fiscal year 2016. In August 2020, the IRS issued a Notice of Proposed Adjustment to the Company asserting that the tenant allowances paid to us under our operating leases should be recorded as taxable income for years 2016 and prior. The Company disagrees with this position based on the underlying facts and circumstances as well as standard industry practice. The Company estimates if the IRS's position was upheld, the Company's tax liability associated with this position could range between \$0.5 million and \$2.5 million. In accordance with the provisions of FASB Accounting Standards Codification Subtopic 740-10, *Accounting for Uncertainty in Income Taxes*, the Company believes that it is more likely than not that the Company's position will ultimately be sustained upon further examination, including the resolution of the IRS's appeal or litigation processes, if any. As of March 27, 2022 and March 28, 2021, the Company recognized no liability for uncertain tax positions.

The tax years 2020, 2019 and 2018 remain open for IRS audit. The Company has received no notice of audit or any notifications from the IRS for any of the open tax years.

**11. Impairment, Closed Restaurant and Other Costs**

The Company reviews long-lived assets, such as property and equipment, operating lease assets and intangibles, subject to amortization, for impairment when events or circumstances indicate the carrying value of the assets may not be recoverable. In determining the recoverability of the asset value, an analysis is performed at the individual restaurant level and primarily includes an assessment of historical undiscounted cash flows and other relevant factors and circumstances. The Company evaluates future cash flow projections in conjunction with qualitative factors and future operating plans and regularly reviews any restaurants with a deficient level of cash flows for the previous 24 months to determine if impairment testing is necessary.

Recoverability of assets to be held and used is measured by a comparison of the carrying value of the restaurant to its estimated future undiscounted cash flows. If the estimated undiscounted future cash flows are less than the carrying value, we determine if there is an impairment loss by comparing the carrying value of the restaurant to its estimated fair value. Based on this analysis, if the carrying value of the restaurant exceeds its estimated fair value, an impairment charge is recognized by the amount by which the carrying value exceeds the fair value.

We make assumptions to estimate future cash flows and asset fair values. The estimated fair value is generally determined using the depreciated replacement cost method, the income approach, or discounted cash flow projections. Estimated future cash flows are highly subjective assumptions based on the Company's projections and understanding of our business, historical operating results, and trends in sales and restaurant level operating costs.

The Company's impairment assessment process requires the use of estimates and assumptions regarding future cash flows and operating outcomes, which are based upon a significant degree of management judgment. The estimates used in the impairment analysis represent a Level 3 fair value measurement. The Company continues to assess the performance of restaurants and

**Chuy's Holdings, Inc.**  
**Notes to Unaudited Condensed Consolidated Financial Statements**  
**(Tabular dollar amounts in thousands, except share and per share data)**

monitors the need for future impairment. Changes in the economic environment, real estate markets, capital spending, overall operating performance and underlying assumptions could impact these estimates and result in future impairment charges.

The Company recorded impairment, closed restaurant and other costs as follows:

	Thirteen Weeks Ended	
	March 27, 2022	March 28, 2021
Property and equipment impairment	—	288
Total impairment charge	—	288
Closed restaurant costs	1,279	1,565
Loss on lease termination	—	491
Impairment, closed restaurant and other costs	<u>\$ 1,279</u>	<u>\$ 2,344</u>

Closed restaurant costs represent on-going expenses to maintain the closed restaurants, such as rent expense, utility and insurance among other costs required to maintain the remaining closed locations.

During the thirteen weeks ended March 28, 2021, the Company terminated two of its closed restaurant lease agreements and recorded a \$0.5 million non-cash loss on lease termination as well as a \$0.3 million non-cash impairment charge related to long-lived assets.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Unless otherwise specified, or the context otherwise requires, the references in this report to "Chuy's," "our Company," "the Company," "us," "we" and "our" refer to Chuy's Holdings, Inc. together with its subsidiaries.

The following discussion summarizes the significant factors affecting the consolidated operating results, financial condition, liquidity and cash flows of our Company as of and for the periods presented below. The following discussion and analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended December 26, 2021 (our "Annual Report") and the unaudited condensed consolidated financial statements and the accompanying notes thereto included herein.

**Overview**

We are a growing full-service restaurant concept offering a distinct menu of authentic, freshly-prepared Mexican and Tex-Mex inspired food. We were founded in Austin, Texas in 1982 and, as of March 27, 2022, we operated 96 restaurants across 17 states.

We are committed to providing value to our customers through offering generous portions of made-from-scratch, flavorful Mexican and Tex-Mex inspired dishes. We also offer a full-service bar in all of our restaurants providing our customers a wide variety of beverage offerings. We believe the Chuy's culture is one of our most valuable assets, and we are committed to preserving and continually investing in our culture and our customers' restaurant experience.

Our restaurants have a common décor, but we believe each location is unique in format, offering an "unchained" look and feel, as expressed by our motto "If you've seen one Chuy's, you've seen one Chuy's!" We believe our restaurants have an upbeat, funky, eclectic, somewhat irreverent atmosphere while still maintaining a family-friendly environment.

**Performance Indicators**

We use the following performance indicators in evaluating our performance:

- *Number of Restaurant Openings.* Number of restaurant openings reflects the number of restaurants opened during a particular fiscal period. For restaurant openings, we incur pre-opening costs, which are defined below, before the restaurant opens. Typically, new restaurants open with an initial start-up period of higher than normalized sales volumes, which decrease to a steady level approximately six to twelve months after opening. However, operating costs during this initial six to twelve month period are also higher than normal, resulting in restaurant operating margins that are generally lower during the start-up period of operation and increase to a steady level approximately nine to twelve months after opening.
- *Comparable Restaurant Sales.* We consider a restaurant to be comparable in the first full quarter following the 18th month of operations. Changes in comparable restaurant sales reflect changes in sales for the comparable group of restaurants over a specified period of time. Changes in comparable sales reflect changes in customer count trends as well as changes in average check. Our comparable restaurant base consisted of 92 restaurants at March 27, 2022.
- *Comparable Restaurant Sales as compared to 2019.* Changes in comparable restaurant sales reflect changes in sales for the comparable group of restaurants over a specified period of time as compared to that time in fiscal year 2019. The comparable group of restaurants include the restaurants that were in the comparable base as of the end of fiscal year 2019. Our comparable restaurant base consisted of 81 restaurants at March 27, 2022.
- *Average Check.* Average check is calculated by dividing revenue by total entrées sold for a given time period. Average check reflects menu price increases as well as changes in menu mix. Our management team uses this indicator to analyze trends in customers' preferences, effectiveness of changes in menu and price increases as well as per customer expenditures.
- *Average Weekly Customers.* Average weekly customers is measured by the number of entrées sold per week. Our management team uses this metric to measure changes in customer traffic.
- *Average Unit Volume.* Average unit volume consists of the average sales of our comparable restaurants over a certain period of time. This measure is calculated by dividing total comparable restaurant sales within a period of time by the total number of comparable restaurants within the relevant period. This indicator assists management in measuring changes in customer traffic, pricing and development of our brand.
- *Operating Margin.* Operating margin represents income from operations as a percentage of our revenue. By monitoring and controlling our operating margins, we can gauge the overall profitability of our Company.

The following table presents operating data for the periods indicated:

	Thirteen Weeks Ended	
	March 27, 2022	March 28, 2021
Total open restaurants (at end of period)	96	93
Total comparable restaurants (at end of period)	92	89
Average unit volumes (in thousands)	\$ 1,054	\$ 950
Change in comparable restaurant sales <sup>(1)</sup>	11.4 %	(3.2)%
Average check	\$ 17.71	\$ 17.15

<sup>(1)</sup> We consider a restaurant to be comparable in the first full quarter following the 18th month of operations. Change in comparable restaurant sales reflects changes in sales for the comparable group of restaurants over a specified period of time.

**Our Fiscal Year**

We operate on a 52- or 53-week fiscal year that ends on the last Sunday of the calendar year. Each quarterly period has 13 weeks, except for a 53-week year when the fourth quarter has 14 weeks. Our 2022 and 2021 fiscal years each consists of 52 weeks.

**Key Financial Definitions**

*Revenue.* Revenue primarily consists of food and beverage sales and also includes sales of our t-shirts, sweatshirts and hats. Revenue is presented net of discounts associated with each sale. Revenue in a given period is directly influenced by the number of operating weeks in such period, the number of restaurants we operate and comparable restaurant sales growth.

*Cost of sales.* Cost of sales consists of food, beverage and merchandise related costs. The components of cost of sales are variable in nature, change with sales volume and are subject to increases or decreases based on fluctuations in commodity costs.

*Labor costs.* Labor costs include restaurant management salaries, front- and back-of-house hourly wages and restaurant-level manager bonus expense and payroll taxes.

*Operating costs.* Operating costs consist primarily of restaurant-related operating expenses, such as supplies, utilities, repairs and maintenance, travel cost, insurance, employee benefits, credit card fees, recruiting, delivery service and security. These costs generally increase with sales volume but may increase or decrease as a percentage of revenue.

*Occupancy costs.* Occupancy costs include rent charges, both fixed and variable, as well as common area maintenance costs, property taxes, the amortization of tenant allowances and the adjustment to straight-line rent. These costs are generally fixed but a portion may vary with an increase in sales when the lease contains percentage rent.

*General and administrative expenses.* General and administrative expenses include costs associated with corporate and administrative functions that support our operations, including senior and supervisory management and staff compensation (including stock-based compensation) and benefits, travel, legal and professional fees, information

systems, corporate office rent and other related corporate costs.

**Marketing.** Marketing costs include costs associated with our local restaurant marketing programs, community service and sponsorship activities, our menus and other promotional activities.

**Restaurant pre-opening costs.** Restaurant pre-opening costs consist of costs incurred before opening a restaurant, including manager salaries, relocation costs, supplies, recruiting expenses, initial new market public relations costs, pre-opening activities, employee payroll and related training costs for new employees. Restaurant pre-opening costs also include rent recorded during the period between date of possession and the restaurant opening date.

**Impairment, closed restaurant and other costs.** Impairment costs include impairment of long-lived assets associated with restaurants where the carrying amount of the asset is not recoverable and exceeds the fair value of the asset. Closed restaurant costs consist of any costs associated with the closure of a restaurant such as lease termination costs, severance benefits, other miscellaneous closing costs as well as costs to maintain these closed restaurants through the lease termination date such as occupancy costs, including rent payments less sublease income, if any, and insurance and utility costs. Other costs consist of closed restaurant lease termination fees.

**Depreciation.** Depreciation principally includes depreciation on fixed assets, including equipment and leasehold improvements.

**Interest expense.** Interest expense consists primarily of interest on our outstanding indebtedness, uncommitted credit facility fees and the amortization of our debt issuance costs reduced by interest income, if any.

## Results of Operations

### Potential Fluctuations in Quarterly Results and Seasonality

Our quarterly operating results may fluctuate significantly as a result of a variety of factors, including the timing of new restaurant openings and related expenses, profitability of new restaurants, weather, increases or decreases in comparable restaurant sales, general economic conditions, consumer confidence in the economy, changes in consumer preferences, competitive factors, changes in food costs, changes in labor costs and changes in gas prices. In the past, we have experienced significant variability in restaurant pre-opening costs from quarter to quarter primarily due to the timing of restaurant openings. We typically incur restaurant pre-opening costs in the five months preceding a new restaurant opening. In addition, our experience to date has been that labor and direct operating costs associated with a newly opened restaurant during the first several months of operation are often materially greater than what will be expected after that time, both in aggregate dollars and as a percentage of restaurant sales. Accordingly, the number and timing of new restaurant openings in any quarter has had, and is expected to continue to have, a significant impact on quarterly restaurant pre-opening costs, labor and direct operating costs.

Our business is also subject to fluctuations due to seasonality and adverse weather. The spring and summer months have traditionally had higher sales volume than other periods of the year. Timing of holidays, severe winter weather, hurricanes, thunderstorms and similar conditions may impact restaurant unit volumes in some of the markets where we operate and may have a greater impact should they occur during our higher volume months. As a result of these and other factors, our financial results for any given quarter may not be indicative of the results that may be achieved for a full fiscal year.

### Thirteen Weeks Ended March 27, 2022 Compared to Thirteen Weeks Ended March 28, 2021

The following table presents, for the periods indicated, the condensed consolidated statement of operations (in thousands):

	Thirteen Weeks Ended					
	March 27, 2022	% of Revenue	March 28, 2021	% of Revenue	\$ Change	% Change

Income tax expense (benefit)	537	0.5	(717)	(0.8)	1,254	(174.9)
Net income	\$ 5,518	5.5 %	\$ 6,654	7.6 %	\$ (1,136)	(17.1)%

**Revenue.** Revenue increased \$12.8 million, or 14.6%, to \$100.5 million for the thirteen weeks ended March 27, 2022 from \$87.7 million for the comparable period in 2021. The increase was primarily related to growth in customer traffic as the Company continued to relax indoor dining capacity restrictions throughout its restaurants, as well as \$3.1 million of incremental revenue from an additional 46 operating weeks provided by new restaurants opened during and subsequent to the first quarter of 2021. For the first quarter of 2022, off-premise sales were approximately 28% of total revenue compared to approximately 32% in the same period last year.

Comparable restaurant sales increased 11.4% for the thirteen weeks ended March 27, 2022 compared to the same period last year primarily driven by a 7.8% increase in average weekly customers and a 3.6% increase in average check. Comparable restaurant sales decreased 1.7% as compared to the same period in fiscal 2019. The comparable restaurant sales as compared to

2019 were negatively impacted by the Omicron variant outbreak during January and the first half of February of 2022 as well as an approximately 120 basis point decrease due to the severe winter weather across most of the Central United States.

**Cost of sales.** Cost of sales as a percentage of revenue increased to 26.1% during the thirteen weeks ended March 27, 2022 compared to 23.3% during the comparable period in 2021 primarily as a result of commodity inflation of approximately 18% with a substantial price increase in the cost of beef and chicken as well as fresh produce, cheese and grocery items, such as oil and flour.

**Labor costs.** Labor costs as a percentage of revenue increased to 29.7% during the thirteen weeks ended March 27, 2022 from 28.3% during the comparable period in 2021 largely as a result of hourly labor rate inflation of approximately 13% at comparable restaurants as well as an incremental improvement in our hourly staffing levels as compared to last year.

**Operating costs.** Operating costs as a percentage of revenue increased to 16.2% during the thirteen weeks ended March 27, 2022 from 15.4% during the same period in 2021 mainly as a result of higher restaurant repair and maintenance costs, increase in delivery service charges, cost pressures on to-go supplies and utility costs as well as higher credit card fees due to an increase in dine-in transactions that have a higher transaction fee.

**Occupancy costs.** Occupancy costs as a percentage of revenue decreased to 7.6% during the thirteen weeks ended March 27, 2022 from 8.3% during the comparable period in 2021 primarily as a result of sales leverage on fixed occupancy expenses, partially offset by higher percentage rent.

**General and administrative expenses.** General and administrative expenses decreased to \$6.7 million for the thirteen weeks ended March 27, 2022 as compared to \$6.8 million for the same period in 2021. The decrease was primarily driven by lower performance-based bonuses, partially offset by an increase in management salaries and stock based

compensation. As a percentage of revenues, general and administrative expenses decreased to 6.6% in the first quarter of 2022 from 7.8% in the first quarter of 2021.

*Restaurant pre-opening costs.* Restaurant pre-opening costs decreased to \$0.1 million for the thirteen weeks ended March 27, 2022 as compared to \$0.7 million for the same period in 2021 due to the timing of new store openings.

*Marketing.* Marketing expense as a percentage of revenue increased to 1.4% during the thirteen weeks ended March 27, 2022 as compared to 1.1% for the same period in 2021 as the Company reinstated its digital advertising campaigns across the nation.

*Impairment, closed restaurant and other costs.* Impairment, closed restaurant and other costs decreased to \$1.3 million during the thirteen weeks ended March 27, 2022 from \$2.3 million during the comparable period in 2021. During the first quarter of 2022, we recorded \$1.3 million of closed restaurant costs such as rent expense, utility and insurance among other costs required to maintain the remaining closed locations. During the same period last year, we recorded \$1.6 million of closed restaurant costs, a \$0.5 million loss on lease termination of two operating leases, and a \$0.3 million non-cash impairment charge related to their long-lived assets.

*Depreciation.* Depreciation expense increased to \$5.0 million during the thirteen weeks ended March 27, 2022 from \$4.9 million recorded during the comparable period in 2021 primarily due to an increase in depreciation associated with our new restaurants.

*Income tax expense (benefit).* We recorded an income tax expense of \$0.5 million in the first quarter of 2022 compared to an income tax benefit of \$0.7 million during the comparable period in 2021. The increase in income tax expense was primarily driven by a \$1.3 million discrete tax benefit recorded during the first quarter of 2021 related to stock based compensation. As of March 27, 2022, the Company had a \$5.0 million deferred tax asset, which management believes will be fully realized, therefore, no valuation allowance is required at this time.

In August 2020, the IRS issued a Notice of Proposed Adjustment to the Company asserting that the tenant allowances paid under our operating leases should be recorded as taxable income for years 2016 and prior. The Company disagrees with the IRS's position and believes that it is more likely than not that the Company's position will ultimately be sustained upon further examination, including the resolution of the IRS's appeal or litigation processes, if any. As a result, no further tax accrual was made. The Company estimates if the IRS's position was upheld, the Company's tax liability associated with the IRS's position could range between \$0.5 million and \$2.5 million.

*Net income.* As a result of the foregoing, net income was \$5.5 million during the thirteen weeks ended March 27, 2022 as compared to \$6.7 million during the comparable period in 2021.

## Liquidity

Our principal sources of cash are cash and cash equivalents, net cash provided by operating activities, which includes tenant improvement allowances from our landlords, and borrowings, if any, under our \$35.0 million revolving credit facility as further discussed in Note 5, *Long-Term Debt*. Consistent with many other restaurant and retail store operations, we typically use operating lease arrangements for our restaurants. From time to time, we may also purchase the underlying land for

development. We believe that our operating lease arrangements provide appropriate leverage of our capital structure in a financially efficient manner. We may also from time to time sell equity or engage in other capital markets transactions.

Our main requirements for liquidity are to support our working capital, restaurant expansion plans, ongoing maintenance of our existing restaurants, investment in infrastructure, obligations under our operating leases, interest payments on our debt, if any, and to repurchase shares of our common stock subject to market conditions. Repurchases of the Company's outstanding common stock will be made in accordance with applicable laws and may be made at management's discretion from time to time in the open market, through privately negotiated transactions or otherwise, including pursuant to Rule 10b5-1 trading plans. There is no guarantee as to the exact number of shares to be repurchased by the Company. The timing and extent of repurchases will depend upon several factors, including market and business conditions, regulatory requirements and other corporate considerations, and repurchases may be discontinued at any time.

The Company repurchased 718,112 shares for approximately \$19.7 million during the first quarter of 2022. As of March 27, 2022, the Company had repurchased a total of 983,044 shares and had \$21.9 million remaining under its \$50.0 million repurchase program.

Our liquidity may be adversely affected by a number of factors, including a decrease in customer traffic or average check per customer due to changes in economic conditions, as described in Item 1A. "Risk Factors" of our Annual Report.

As of March 27, 2022, the Company had a strong financial position with \$89.7 million in cash and cash equivalents, no debt and \$35.0 million of availability under its revolving credit facility.

## Cash Flows for Thirteen Weeks Ended March 27, 2022 and March 28, 2021

The following table summarizes the statement of cash flows (in thousands):

	Thirteen Weeks Ended	
	March 27, 2022	March 28, 2021
Net cash provided by operating activities	\$ 6,851	\$ 12,315
Net cash used in investing activities	(2,613)	(1,719)
Net cash used in financing activities	(21,146)	(155)
Net (decrease) increase in cash and cash equivalents	(16,908)	10,441
Cash and cash equivalents at beginning of year	106,621	86,817
Cash and cash equivalents at end of period	\$ 89,713	\$ 97,258

*Operating Activities.* Net cash provided by operating activities decreased \$5.4 million to \$6.9 million for the thirteen weeks ended March 27, 2022 from \$12.3 million during the comparable period in 2021. Our business is almost exclusively a cash business. Almost all of our receipts come in the form of cash and cash equivalents and a large majority of our expenditures are paid within a 30 day period. The decrease in net cash provided by operating activities was mainly attributable to \$3.3 million decrease in accrued and other liabilities driven by higher bonus payments this year as compared to fiscal 2021 as well as a \$1.0 million lease incentive receivable recorded during the first quarter of 2022.

*Investing Activities.* Net cash used in investing activities increased \$0.9 million to \$2.6 million for the thirteen weeks ended March 27, 2022 from \$1.7 million during the comparable period in 2021, mainly driven by a timing of our new restaurant construction as compared to the same period last year.

*Financing Activities.* Net cash used by financing activities increased \$20.9 million to \$21.1 million for the thirteen weeks ended March 27, 2022 from \$0.2 million during the comparable period in 2021 primarily due to a \$19.7 million increase in the repurchases of shares of common stock.

As of March 27, 2022, we had no other financing transactions, arrangements or other relationships with any unconsolidated affiliates or related parties. Additionally, we had no financing arrangements involving synthetic leases or trading activities involving commodity contracts.

For information regarding new accounting pronouncements, see Note 2, *Recent Accounting Pronouncements* in the notes to our unaudited condensed consolidated financial statements.

#### Cautionary Statement Concerning Forward-Looking Statements

Certain statements in this quarterly report on Form 10-Q that are not historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements reflect the current views of our senior management with respect to future events and our financial performance. These statements include forward-looking statements with respect to our business and industry in general. Statements that include the words “expect,” “intend,” “plan,” “believe,” “project,” “forecast,” “estimate,” “may,” “should,” “anticipate” and similar statements of a future or forward looking nature identify forward-looking statements for purposes of the federal securities laws or otherwise. Forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause our actual results to differ materially from those indicated in these statements. We believe that these factors include, but are not limited to, the following:

- the ultimate duration and severity of the COVID-19 pandemic and any new variants, and the effectiveness of actions taken, or actions that may be taken, by governmental authorities to contain the outbreak or treat its impact;
- the impact of negative economic factors, including inflation and the availability of credit, on our landlords and surrounding tenants;
- the success of our existing and new restaurants;
- our ability to identify appropriate sites and develop and expand our operations;
- our ability to manage our growth effectively and the resulting changes to pre-opening costs;
- we operate most of our restaurants under long-term leases which we may not be able to renew and would be obligated to perform even if we closed our restaurants;
- changes in economic conditions and consumer buying patterns;
- damage to our reputation or lack of acceptance of our brand in existing or new markets;
- our expansion into markets that we are unfamiliar with;
- economic and other trends and developments, including adverse weather conditions, in the local or regional areas in which our restaurants are located and specifically in Texas where a large percentage of our restaurants are located;
- acts of violence at or threatened against our restaurants or centers in which they are located;
- changes in food availability and costs;
- food safety and food borne illness concerns;
- increased competition in the restaurant industry and the segments in which we compete;
- the success of our marketing programs;
- the impact of new restaurant openings, including the effect on our existing restaurants when opening new restaurants in the same markets and restaurant closures;
- strain on our infrastructure and resources caused by our growth;
- the inadequacy of our insurance coverage and fluctuating insurance requirements and costs;
- the impact of security breaches of confidential customer information in connection with our electronic processing of credit and debit card transactions;
- inadequate protection of our intellectual property;
- the failure of our information technology system or the breach of our network security;
- a major natural or man-made disaster;
- labor shortages and increases in our labor costs, including as a result of changes in government regulation;
- the loss of key members of our management team;
- the impact of legislation and regulation regarding nutritional information and new information or attitudes regarding diet and health or adverse opinions about the health of consuming our menu offerings;
- the impact of federal, state and local laws and regulations, including with respect to liquor licenses and food services;
- the impact of litigation;
- the impact of impairment charges;
- the failure of our internal control over financial reporting;
- the impact of federal, state and local tax laws and the Internal Revenue Service disagreeing with our tax position;
- the effect of changes in accounting principles applicable to us;
- the impact of our indebtedness on our ability to invest in the ongoing needs of our business;
- our ability to obtain debt or other financing on favorable terms or at all;
- volatility in the price of our common stock;
- the timing and amount of repurchases of our common stock;
- the impact of future sales of our common stock and any additional capital raised by us through the sale of our common stock or grants of additional equity-based compensation;
- the impact of a downgrade of our shares by securities analysts or industry analysts, the publication of negative research or reports, or lack of publication of reports about our business;
- the effect of anti-takeover provisions in our charter documents and under Delaware law;
- the effect of our decision to not pay dividends for the foreseeable future;
- our ability to raise capital in the future; and
- other risks and uncertainties described from time to time in the Company's Annual Report and other filings with the Securities and Exchange Commission.

Although we believe that the expectations reflected in the forward-looking statements are reasonable based on our current knowledge of our business and operations, we cannot guarantee future results, levels of activity, performance or achievements. The foregoing factors should not be construed as exhaustive and should be read together with other cautionary statements included in this report and in our Annual Report. If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove

to be incorrect, actual results may differ materially from what we anticipate. Any forward-looking statements you read in this report reflect our views as of the date of this report with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, growth strategy and liquidity. You should not place undue reliance on these forward-looking statements and you should carefully consider all of the factors identified in this report that could cause actual results to differ. We assume no obligation to update these forward-looking statements, except as required by law.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes to our quantitative and qualitative disclosures about market risk from what was previously disclosed in our Annual Report filed with the SEC.

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

We carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule

13a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) were effective as of the end of the period covered by this report.

The design of any system of control is based upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated objectives under all future events, no matter how remote, or that the degree of compliance with the policies or procedures may not deteriorate. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

**Changes in Internal Control over Financial Reporting**

There have been no changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that occurred during our quarter ended March 27, 2022, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
